## Forward-Looking Statements

This presentation contains forward-looking statements within the meaning of the federal securities laws with respect to Nikola Corporation (the “Company”), including statements relating to the Company's future financial outlook and future business performance and milestones and its ability achieve the future results and execute on its business plan; expectations regarding its manufacturing facility expansion and production capacity; expected timing of completion of testing, production and other milestones; expected capacities and benefits of our Hyla mobile fueler and Hyla mobile tube trailer; expected cost savings of automated battery module and pack line; expected orders and deliveries of our trucks and the timing thereof; expectations regarding parts and supply chain; expectations regarding the Company's hydrogen production and dispensing plan, buildout and timing; the Company's fueling and dealer networks; the terms and potential benefits of planned and actual collaborations with strategic partners; and the Company's anticipated capital requirements. Forward-looking statements generally are identified by words such as “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” and similar expressions that predict or indicate future events or trends or that are not historical fact. Forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially and reported results should not be considered as an indication of future performance. These risks and uncertainties include, but are not limited to: design and manufacturing changes and delays, including global shortages in parts and materials; general economic, financial, legal, regulatory, political and business conditions and changes in domestic and foreign markets; the impact of inflation and other factors on demand for our trucks; the effects of COVID-19; the outcome of legal, regulatory and judicial proceedings to which the Company or Romeo Power, Inc. is, or may become a party; demand for and customer acceptance of the Company's trucks; risks associated with development and testing of fuel-cell power modules and hydrogen storage systems; risks related to the rollout of the Company's business and milestones and the timing of expected business milestones; the effects of competition on the Company's future business; the availability of capital; risks related to the Company's acquisition of Romeo Power, Inc., including known and unknown liabilities; the execution and terms of definitive agreements; the failure to convert LOIs or MOUs into binding orders; the cancellation of orders; expenses, litigation and regulatory proceedings; our ability to achieve cost reductions for our vehicles; customer demand for our trucks; and the factors, risks and uncertainties regarding the Company's business described in the “Risk Factors” section of the Company's quarterly report on Form 10-Q for the quarter ended September 30, 2022 filed with the SEC, in addition to the Company's subsequent filings with the SEC. If these or other risks materialize, or assumptions prove incorrect, actual results could differ materially from the results implied by these forward-looking statements. Forward-looking statements speak only as of the date hereof, and the Company disclaims any obligation to update these forward-looking statements.

## Use of Non-GAAP Financial Measures

To supplement our financial statements prepared in accordance generally accepted accounting principles in the United States (GAAP), we are providing certain non-GAAP measures, including EBITDA, Adjusted EBITDA, non-GAAP net loss and non-GAAP net loss per share basic and diluted, all of which are non-GAAP financial measures and are presented as supplemental measures of the Company's performance. Non-GAAP net loss is defined as net loss adjusted for stock-based compensation expense and certain other items the Company believes are not indicative of its core operating performance. Non-GAAP net loss per share basic and diluted is defined as Non-GAAP net loss divided by weighted average basic and diluted shares outstanding. The Company defines adjusted EBITDA as earnings before interest expense, taxes, depreciation and amortization and certain other expense items the Company believes are not indicative of its core operating performance. These non-GAAP measures are not substitutes for or superior to measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to any other performance measures derived in accordance with GAAP. The Company also references total liquidity, which is cash, cash equivalents and restricted cash, plus availability under its equity line of credit.

The Company believes that presenting these non-GAAP measures provides useful supplemental information to investors about the Company in understanding and evaluating its operating results, enhancing the overall understanding of its past performance and future prospects, and allowing for greater transparency with respect to key financial metrics used by its management in financial and operational-decision making. However, there are limitations related to the use of non-GAAP measures and their nearest GAAP equivalents. For example, other companies may calculate non-GAAP measures differently, or may use other measures to calculate their financial performance, and therefore any non-GAAP measures the Company uses may not be directly comparable to similarly titled measures of other companies.

## Trademarks

This presentation contains trademarks, service marks, trade names and copyrights of Nikola and other companies, and are the property of their respective owners.

# BUSINESS UPDATE

## Michael Lohscheller, CEO

# Q4 & FY 2022 HIGHLIGHTS

Pioneering zero-emissions commercial transportation

## Q4 & FY 2022 Business Highlights

- Began serial production of the Nikola Tre BEV in March 2022
- Delivered 131 Nikola Tre BEVs to dealers for the Full Year 2022
- Providing customers with fully integrated mobility solutions
  - ChargePoint partnership allows Nikola and our dealers to sell chargers and software
  - Unveiled Hydrogen Mobile Fueler providing flexible hydrogen refueling infrastructure
- Acquired 920-acre parcel of land in the City of Buckeye, AZ for Phoenix Hydrogen Hub
  - Invited to Phase II of DOE loan application process
  - Signed term sheet with Fortescue Future Industries
    - Includes collaboration for hydrogen supply across North America
- Announced strategic partnership with Plug Power in Q4 2022
  - Order for up to 75 Tre FCEVs from Plug
  - Hydrogen supply nationwide up to 125 metric-tons per day (TPD)
- Successfully completed FCEV alpha pilot testing with Anheuser-Busch, Walmart, and TTSI
- Completed acquisition of Romeo Power in October 2022
  - Transitioning battery module and pack manufacturing to Coolidge
    - Expected to improve module and pack quality and throughput
    - Expected to provide \$105,000 in cost savings each BEV truck

## Q4 & FY 2022 Financial Highlights

- Reported Full Year 2022 Revenues of \$50.8 million
- Continued to access capital markets
  - Executed convertible notes for \$200 million in May 2022
  - Announced \$400 million ATM in August 2022
  - Announced \$125 million convertible notes in December 2022
- Total access to capital of \$942.7 million as of 12/31/22

# ENERGY

Access to hydrogen supply, developing energy transition solutions

## Key Updates

- Accelerated execution on energy supply and infrastructure
  - Launched hydrogen energy brand HYL A
  - Introduced HYL A Mobile Fueler and Hydrogen Tube Trailer
    - Mobile Fueler capable of 10,000 PSI fueling, Tube Trailer 960 kg H<sub>2</sub> capacity
    - First mobile fueler of its kind allows us to accelerate deployment of hydrogen refueling infrastructure
- Expanded hydrogen ecosystem partnerships
  - Announced strategic collaboration with Plug Power providing access to up to 125 metric-TPD across the country
  - Announced expected collaboration with Fortescue Future Industries
    - Collaboration for hydrogen supply across North America
    - Received term sheet for Phoenix Hydrogen Hub

## Hydrogen Supply Targets

HYL A Mobile Fueler

HYL A Hydrogen Tube Trailer

HYL A Station<sup>(4)</sup>

Partner Station<sup>(4)</sup>

- 212 metric-tons per day of supply under contract as of today
- Target of 300 metric-tons per day of production and supply by 2026
- Illustrative; Includes announced partnerships and projects to date and other projects under negotiation; subject to definitive documentation and completion
- Rendering

# TRUCK

Fully integrated mobility solutions

- On track for SOP and customer deliveries in Q4 2023
  - Successfully concluded alpha pilot testing
    - Accumulated over 7,800 miles with Walmart
    - Accumulated over 9,500 miles with TTSI
  - Completed build of 17 beta trucks
    - Beta trucks are undergoing development testing & validation
  - In process of building 10 gamma trucks
    - Gamma trucks will be used for additional customer testing and validation
  - Received HVIP approval, customer incentive up to \$288,000 per truck
  - Looking to secure customer deposits and orders
    - Plug Power – 75 trucks
    - Biagi Brothers – 15 trucks

- Implemented new features based on customer feedback
  - Released over-the-air software update 2.0
    - Increased usable battery capacity extending range by up to 40 miles
    - Enabled 350 kW charging capability
    - Battery Management System updates
- Deploying charging solutions to put our trucks into customer fleets now
  - Announced partnership with ChargePoint allowing Nikola and our dealers to sell ChargePoint products and software
    - Single E-Skid: 100 amps
    - Dual E-Skid: 200 amps
  - Nikola MCT: 300 amps
- Strengthened Sales & Commercial team, hired Bruce Kurtt, SVP Sales and Commercial
  - Refined strategy & customer targeting
  - Brings years of experience and deep trucking relationships

Nikola Tre FCEV <sup>(1)</sup>

Nikola Tre FCEV <sup>(1)</sup>

E-Skid

1. Nikola Tre FCEV is pre-production

# EUROPEAN JV & MANUFACTURING

Ready to scale

## EU JV Updates

- Continued collaboration with E.ON to develop competitive hydrogen packages in heavy-duty transport by 2024
  - Expect to execute JV agreement by the end of Q1 2023
- Received first LOIs for EU Tre FCEVs from GP Joule and Richter Group
- Progressed on EU BEV and FCEV programs
  - EU BEV launch on track for Q3 2023
  - EU FCEV launch on track for Q3 2024

EU Tre BEV s betas on the line in Ulm

EU Tre FCEV betas in Ulm

**GP JOULE**

Received first LOI for 100 EU Tre FCEVs from GP Joule

**Richter group**

Received LOI for 20 EU Tre FCEVs from Richter Group

## Coolidge, AZ Manufacturing Facility

- Continued Phase 2 assembly hall expansion
- Expect to complete Phase 2 building by the end of Q2 2023
  - Provides Nikola with building capacity of up to 20,000 units / year
  - Enables build of BEV & FCEV on the same line
- Transitioning battery module and pack manufacturing from Cypress to Coolidge
  - Expect to complete by Q4 2023
- Expect to begin Bosch Fuel Cell Power Module assembly by end of Q4 2023

 = Phase 2 Assembly Expansion Area

Expected total shares outstanding as of 12/31/23 <sup>(4)</sup>	558,375,000		567,900,000	
Expected weighted average shares outstanding for the quarter ended 3/31/23 and full year ended 12/31/23 <sup>(4)</sup>	543,350,000		558,300,000	

1. Includes stock-based compensation for Q1'23 of \$8.5M and FY'23 of \$34M
2. Includes stock-based compensation for Q1'23 of \$16.5M and FY'23 of \$61M
3. Total stock-based compensation for Q1'23 of \$25M; Total stock-based compensation for FY '23 of \$95M
4. Shares outstanding as of 12/31/2022 plus estimated employee stock option exercises and restricted stock unit distributions; excludes any shares for capital raise

## NON-CELL BATTERY EXPECTED COST REDUCTIONS <sup>(1)</sup>

Illustrative cost reduction walk – transaction close to post integration – battery modules and pack savings only\*

\* Battery Module / Pack Savings Only. Nikola concurrently working to reduce other Non-Battery BOM items.

# CLOSING REMARKS

## Michael Lohscheller, CEO

# MILESTONES

## 2022

- 1  Deliver 300 – 500 production Tre BEVs to dealers
- 2  Successful FCEV alpha pilot testing with Anheuser-Busch, TTSL, and others
- 3  Build, validate, and test FCEV beta trucks
- 4  Announce location, break ground, and commence construction of the first hydrogen production hub in Arizona
- 5  Continued to raise capital through equity lines of credit, ATM, and Convertible Notes
- 6  Announce 2 or more dispensing station partners in California <sup>(1)</sup>

## 2023

- 1 Deliver 250 – 350 Tre BEVs to dealers
- 2 Realize approximately \$105k in cost savings in battery modules and packs for each Tre BEV truck
- 3 Complete the build of 10 gamma FCEVs by end of Q2 2023
- 4 Deliver 125 – 150 Tre FCEVs to dealers
- 5 Achieve final investment decision for Phoenix Hydrogen Hub by early Q3
- 6 Announce at least 2 refueling station partners by Q2 2023

1. Announced 3 station locations: Colton and location servicing Port of Long Beach Nikola Greenfield stations, Ontario station with partner TravelCenters of America
